Chem-Hunt 2.0

Your good old treasure hunt game with a twist of chemicals! It is a team event where each team consist of 4 members. The ChemHunt 2.0 has been divided into 3 main rounds:

Round 1: The Quiz round

Questions based on sports, web series, tricky logics, technology and basic chemistry shall be asked. The test will be max 30 mins. A multiple choice single-correct option type questions. Although the team completing first would have advantage of time, naturally. The qualifying marks would be the 40% of total marks. Any team scoring less than that would be naturally disqualified for the next round.

Round 2: Treasure Hunt

The team completing the quiz round will get the chit for the treasure hunt round in which clues will be given. The clues will contain normal chemistry and science related questions. The difficulty level will be moderate. Seven clues will be there. All the teams will be given the clues in jumbled manner. They would have to show their clues at the next level and will further be given the clue. These clues will contain hints for the next round. Top 5 teams will qualify for the next round.

Round 3: Colurify

Top 5 teams will reach the next round and be given the order of their colours. Items will be provided and they would have to make a sugar rainbow to complete and win the game. This challenge will not be mentioned before but hints shall be given in the poster and clues of Treasure Hunt. The teams wil be allowed to use Internet. The team completing first would win the game.
